**J Douglas Overbeck MD, FACC Again Selected
Texas Super Doctor by Texas Monthly**

(November 16, 2010) Irving, Texas— What does it take to be selected as a Texas Super Doctor year after year? Leading-edge knowledge. Personal bedside manner. And the respect of your peers. Colleagues have again nominated Dr. J Douglas Overbeck of Tuscan Cardiovascular Center to the list of *Texas Super Doctors* as one of the top Cardiologists in the state.

Featured in the December 2010 issue of *Texas Monthly*, this annual list is a culmination of the top medical talent in Texas. Conducted by Key Professional Media, the company surveys doctors to identify those most highly regarded by their peers. They simply ask, "To whom would you refer a loved one or one of your patients for medical diagnosis and/or treatment?" Then, an independent panel of esteemed physicians reviews the list of nominees and makes the final selections for the prestigious list.

"I am honored to be recognized by colleagues as the Cardiologist they would select to treat their loved ones. This is the highest compliment for a physician," says Overbeck. "At Tuscan Cardiovascular Center, we pride ourselves on delivering the highest quality care where our patients are treated like family."

A native of Dallas, Texas, Dr. Overbeck graduated from Texas A&M, and went on to receive his medical degree at UT Southwestern Medical School in Dallas. He then completed his residency at Vanderbilt University and his cardiology fellowship at Baylor University Medical Center in Dallas.

Dr. Overbeck has been in practice as an Interventional Cardiologist in the Irving/Las Colinas area for over 20 years. He is the founder of the Tuscan Cardiovascular Center in Las Colinas, an affiliate of Medical & Surgical Clinic of Irving. The center is committed to providing individualized care in a patient-friendly atmosphere. For more information regarding Tuscan Cardiovascular Center visit www.tuscancardio.com or call (972) 253-2505.
